

Maths Outdoor Learning Morning

Farmers Class

In Farmers class we went on a shape hunt inside our classroom and in our outdoor area. We had a checklist of 3D shapes to find!

We discovered that there are some common 3D shapes in the outside world, but there are a few shapes that were harder to find such as a pyramid!

We also created 2D shapes using natural materials and equipment, thinking carefully about the properties of the 2D shapes.

We really enjoyed our shape morning!
