

Wow!

How did the Ancient Egyptians write?

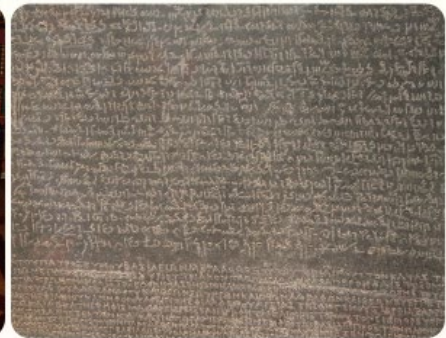

In Fishermen Class as part of our Ancient Egyptian topic we learnt about Hieroglyphic writing. The children studied the ancient Egyptian alphabet and wrote a Cartouche with their names on. The children then copied this on to papyrus paper. A traditional paper made in Egypt using papyrus leaves.

Hieroglyphs The Rosetta Stone

The Rosetta Stone is famous because it contains hieroglyphic script that specialists were able to decode (make sense of).

It was found in 1799 and took twenty years to translate.
