

Target Internet Safety Workshops September 2021

All the children in school attended an internet safety workshop run by 'Service Six'. The children explored a range of topics including; Social Networking, Gaming and Live streaming.

Top Advice:

- Make sure you regularly check your security settings
- Make sure that all profiles are set to private
- Protect your personal information from people you don't know
- Make sure that you report anything that you see that is upsetting or inappropriate
- Do not share your location with people you do not know

Targets Golden Rules:

Think - Do you trust the person that you are talking to?

Anyone - Anyone could see the information you are sharing.

Respect - Respect the laws and use reliable services and sources.

Get - Get help and support if you feel unsafe or unsure about something you have seen, done or been asked online.

Ensure - Ensure you use the internet safely, it is there to be enjoyed.

Together - Together we can tackle grooming and exploitation online.

The staff attended the workshops in school to update their own internet safety and parents were invited to attend an evening session. The evening session was very informative and highlighted the dangers of unsupervised use of the internet.

Safety suggestion:

Google family link:

[Google Family Link - Home](#)

- Guide them to good content
- Manage their APPs
- Feed their curiosity
