

Educaid Assembly

The school welcomed back Miriam who is one of the founders of the Educaid charity. Miriam is also a past pupil of St Marys. The School Parliament, Eco Committee and the School Faith Ambassadors will be meeting to discuss the ways the school can support this fantastic charity.

EducAid works to be a different kind of aid, strengthening education for all children in Sierra Leone, not in creating or expanding a parallel system of education.

EducAid's impact is both large and small - felt at the individual level of our students and the local communities we serve, but also in larger ways, through our sustainable school improvement projects, influencing policy and sharing best practices and lessons learned.
