

Farmers Class

Class Tri to Legoland Discovery Centre

Tuesday 7th March 2023

9:10am: Our day has started with an exciting trip on the coach! As it is a long journey, we kept ourselves busy with a game of Car Journey Bingo. For this, we had to look carefully out of the window to try and find different items. We also drew some wonderful pictures of all the things we could see out of the window.

10:50am: We've arrived! We can't wait to get inside and begin our Legoland adventure. I wonder what we will be doing?

11:30am: Our day has started with a workshop. Our expert Lego builder, Ryan, is teaching us how to make a sea-saw out of DUPLO. Each group has made a fantastic Sea-Saw and we even managed to balance them using the DUPLO people. Look at our creations...

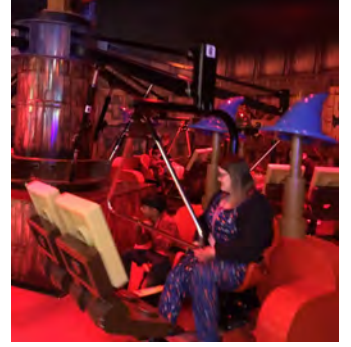

11:45am: We've finished our sea-saws and now we've got some time to build whatever we want! Lots of us have built amazing cars that we can race down the ramps. Such fun!

12:00pm: Lunchtime.

12:30pm: It's time to take a spin on the rides! The Merlin Ride is so much fun. We use the pedals to make the ride go up and down and love waving to our friends as we went round. There are lots of squeals and giggles from the children and the teachers all had a turn (or three!) too.

12:40pm: Next, we're exploring the centre. Some of us build cars to race down the ramps, whilst others have a go and making buildings to withstand the shakes of a simulated earthquake.

1:00pm: We're taking a trip to the 4D cinema to watch the 4D Ninjago movie. We all have to wear 3D glasses to watch the show so that we can see the film in three dimensions. We even got squirted with water and bubbles!

1:15pm: We've just got time for a play in the Soft Play before we head back to the

coach for the journey home.
