

Maths Reasoning Morning- Bake Off!

Carpenters Class

Carpenters were set a bake off challenge:

Can you and your team create a tray of emotion monster cupcakes that match the zones of regulation?

First we got ourselves into groups of 5 or 6. Next we designed the faces of our cupcake emotion monsters. The features on each face had to total 500 points! Then we decided on two people to take on the following roles; cake mixture makers, face designers and buttercream makers, we then worked together to make our cakes.

Once the cakes were, cooled, decorated and ready to sell, we set up our stall. We raised £21.00, which we are spending on wellbeing resources for the whole school!

Carpenters had a fantastic morning of baking and even won the bake off challenge!
