

Wow!

Carpenters are Scientists!

In **Science** this term, Carpenters Class have been learning about **soils**.

clay

sandy

chalky

peat

During this unit, the children have learnt that soil provides animals with a habitat and plants with nutrients needed for growth.

The children worked hard to plan an experiment to answer the following question:

Which soil absorbs the most water?

They then worked in small groups to select their equipment, set up, carry out, observe, and record their experiment.

scale

measuring beakers

filter paper

measuring cylinders

The children showed excellent investigation, and team work skills.
