

Kenilworth Castle WOW!

Fishermen Class visited Kenilworth Castle as part of their Kings and Queens history topic.

They learnt all about life in a castle, how castles were defended, the different jobs people did and what happened when Queen Elizabeth I visited.

First, we learnt how the castle was defended by a mere, a gate house with a drawbridge and portcullis and large walls. They used all sorts to throw down on attackers including boiling hot wee!

Finally, we explored the garden made for Elizabeth I and tried to capture the castle!

Next, we learnt about all the jobs needed to run a castle including blacksmiths, carpenters, fletchers, cooks and even gong farmers (poo collectors!)
